

# 500 WIDE STILE DOOR

# A 07

## 500 Wide Stile Door Additional Features

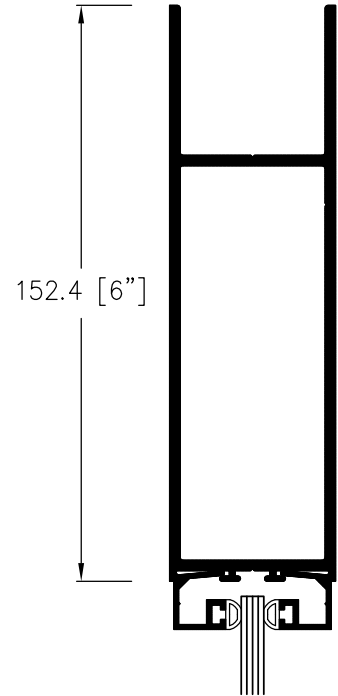

Offers a truly monumental appearance with the additional strength and durability necessary for high traffic along with the ability to accept most hardware.

Standard hardware includes offset pivots, maximum-security lock with cylinder outside and thumb-turn inside, **Metro** push pull, threshold and exposed closer.

We recommend the use of either additional intermediate pivot or 1 1/2" pair of stainless steel hinges.

Available options include various bottom and mid rails, anodized or baked enamel finishes, panic exit devices, and single or sealed unit glazing

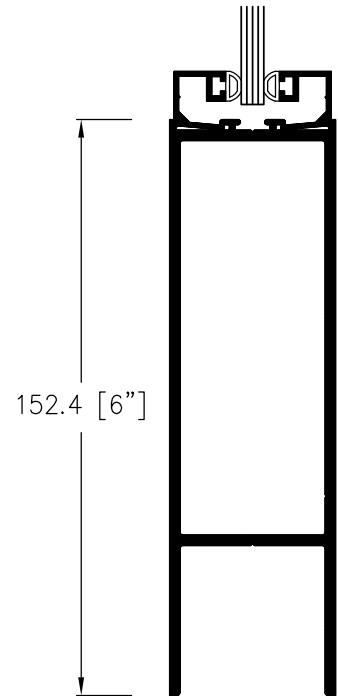

Compatible with all **Metro** entrance framing systems.

**SINGLE ACTING**

**DOUBLE ACTING**

## MEETING STILES
